AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

Claim 1. (Currently amended) A method for identifying an endocrine disrupter comprising the steps of:

- (a) incubating a granulosa-like tumor cell line having aromatase activity with a test compound;
- (b) assaying for inhibition or activation of aromatase activity due to said test compound so as to identify an endocrine disrupter.

Claim 2. (Original) The method of Claim 1, wherein said cell line is a human cell line.

Claim 3. (Canceled)

Claim 4. (Currently amended): The method of Claim 23, wherein said cell line is a human granulosa-like tumor cell line that has the following characteristics:

- (a) Origin: female invasive ovarian granulosa cell carcinoma;
- (b) Doubling time: 46.4 h;
- (c) Abnormal karyotype: 45, XX, 7q-, -22 (7q deletion and monosomy 22);

- (d) Possesses aromatase activity;
 - (e) Produces progesterone upon exposure to human chorionic gonadotropin (HCG);
- and
- (f) Expresses follicle stimulating hormone (FSH).

Claim 5. (Original) The method of Claim 4, wherein said human cell line is KGN cell line (RIKEN gene bank deposit number: RCB 1154).

Claim 6. (Original) The method of Claim 1, wherein aromatase activity is assayed using an assay selected from the group consisting of a [^3H]H₂O release assay, an ELISA and an RIA.

Claims 7-14. (Cancelled).
